

# INFORMATION SHEET

## External Run-on Timer with Clipsal 413/4P Adapter

Code: 8163

expella  
**VENTILATION**  
SERIES

exclusive to Newtech

### PRODUCT OVERVIEW

The External Run-On Timer allows a switched fan to continue to run for a set period after the normal wall switch is turned off. The timer can be set to keep the fan running for between 0 and 60 minutes, ensuring a switched fan can run for a suitable amount of time to exhaust moist or stale air.

### WARRANTY

1 year warranty from date of purchase

### Installation

Connect between a 4 pin socket and standard 3 pin plug. Set the desired time using the dial on the front.

Compatible with Clipsal Single Switch 4 Pin Socket Outlet

### Specification

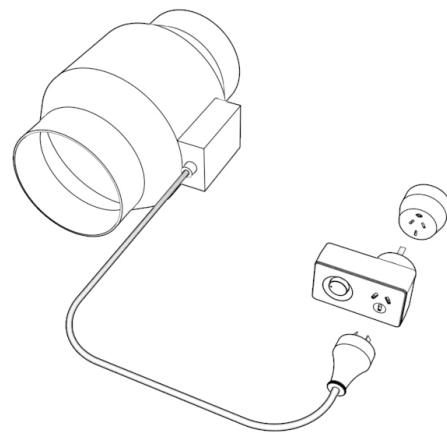

230–250VAC

Max load 10A

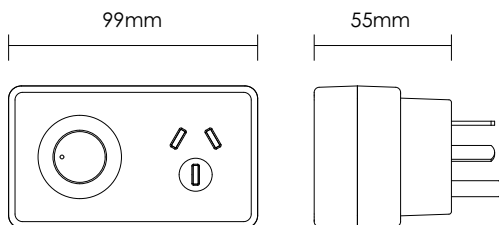

Shuttered 3 pin receptacle

### Manufacturer
